

NaDEET Programmes: EDUCATOR

Learning and living at a unique sustainable centre

NaDEET Centre provides programmes for educators, community fieldworkers and any professionals in the field of education. Our programme is tailor-made to match the background and needs of the educators. The core theme of each programme is integrating the protection of our natural resources into all workplaces, communities and households.

EDUCATORS

Any type of educator workshop that is relevant to the environment such as conservation, environmental education or sustainable living is more than welcome at NaDEET. Educator participants can be from various fields such as formal and informal education, community development and nature conservation.

PROGRAMME LENGTH

NaDEET recommends educator workshops to run from a Monday-Friday.

SAMPLE ACTIVITIES

Activities will vary depending on the needs and background of the group. Some sample activities include:

- Environmental Problem Tree
- Understanding Climate Change and Development
- Biodiversity Dune Walk
- Alternative Energy and Energy Efficiency

ENVIRONMENTAL AUDITING

"Measuring out Enviro Footprint" an environmental audit will take place with every programme.

The audit includes:

- *Water*
- *Energy*
- *Waste*

Participants use of these resources and production of rubbish is monitored throughout the programme. The results of the environmental audit are discussed with the group at the end of the programme.

SUSTAINABLE LEARNING

By living at NaDEET Centre, educator groups will be engaged in various sustainable living practices.

- *Daily preparation of solar cooked meals gives participants the opportunity to learn more about this carbon-free, cooking method.*
- *Environmental auditing makes participants aware of their impact on our natural resources. By understanding how much we use and produce, can we begin to reduce.*
- *Bucket showers using solar-heated water gives participants a nice warm shower, while using only 10 litres of water or less.*

WHY NaDEET?

For sustainable living to occur in the workplace, community or home, we must practice it. This should be implemented in the choices that we make.

NaDEET provides the opportunity to take part in such a learning and living experience.

COST

Please contact NaDEET regarding the cost of your programme. All workshop programme costs include:

- **Programme**
- **Food**
 - 3 solar-cooked meals and two tea times/day.
