

Help NaDEET teach sustainability

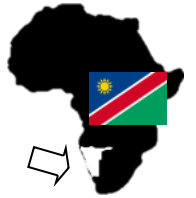

# WATERWISE WASHROOM

## Who is NaDEET?

The Namib Desert Environmental Education Trust (NaDEET) is an award-winning and globally recognised leader in environmental education.

Based on the NamibRand Nature Reserve in Namibia, NaDEET Centre is located in one of the **driest** and least populated countries worldwide.

## NaDEET's mission:

*to protect the natural environment of Namibia by educating its citizens to practice a sustainable lifestyle.*

## Washrooms ? What is so special ? !

The NaDEET washrooms are more than a place for participants to wash their hair or brush their teeth - they are a central part of the NaDEET Centre "living and learning" experience.

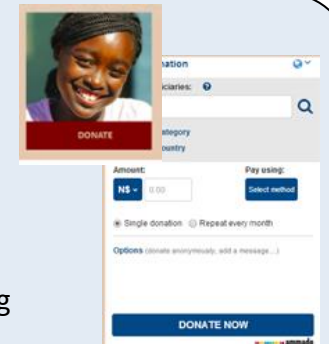

The interactive nature of the facilities teaches Namibian children and adults first-hand valuable lessons about water and energy conservation.

## How can I help out?

Donate to this campaign with our new online donation platform!

Help NaDEET teach sustainability

# WATERWISE WASHROOM

After more than 10 years of the harsh desert climate and 10,000 participants, the **eight** WaterWiseWashrooms need to be renovated.

## Budget for one Washroom

			
General Structure	N\$ 18,750	€ 1,410	\$ 1,770
Water saving features	N\$ 4,375	€ 330	\$ 410
Water reusing and collecting	N\$ 5,750	€ 430	\$ 540
Water quality	N\$ 4,375	€ 330	\$ 410
Fire fighting equipment	N\$ 3,250	€ 240	\$ 300
"Sustainable Energy4all" Lighting Solutions	N\$ 3,500	€ 260	\$ 320
<b>Total</b>	<b>N\$ 40,000</b>	<b>€ 3,000</b>	<b>\$ 3,750</b>

The budget includes materials, tools, transport and labour per washroom.

NaDEET Centre needs **eight** new WaterWiseWashrooms =

**N\$320,000/ € 24,000/ \$30,000**

## More than infrastructure, it is learning by doing

At NaDEET Centre we want visitors to learn how to live a sustainable lifestyle. Participants are divided into "Sustainable Living Teams" and share a house, dry toilet and "WaterWiseWashroom".

Here participants learn skills such as:

- how to monitor their daily water use by reading an indicator and water meter .
- how to wash using a bucket shower
- how to use less water and still be clean!

- I really liked everything about NaDEET, especially the **way** we were taught.

*Emilia, age 12*

- We calculated that we only used 15 litres of water at NaDEET Centre per person every day! Wow, at home just when I flush the toilet I have used 11 litres.

*Theopolina, age 14*
